Console What's new X

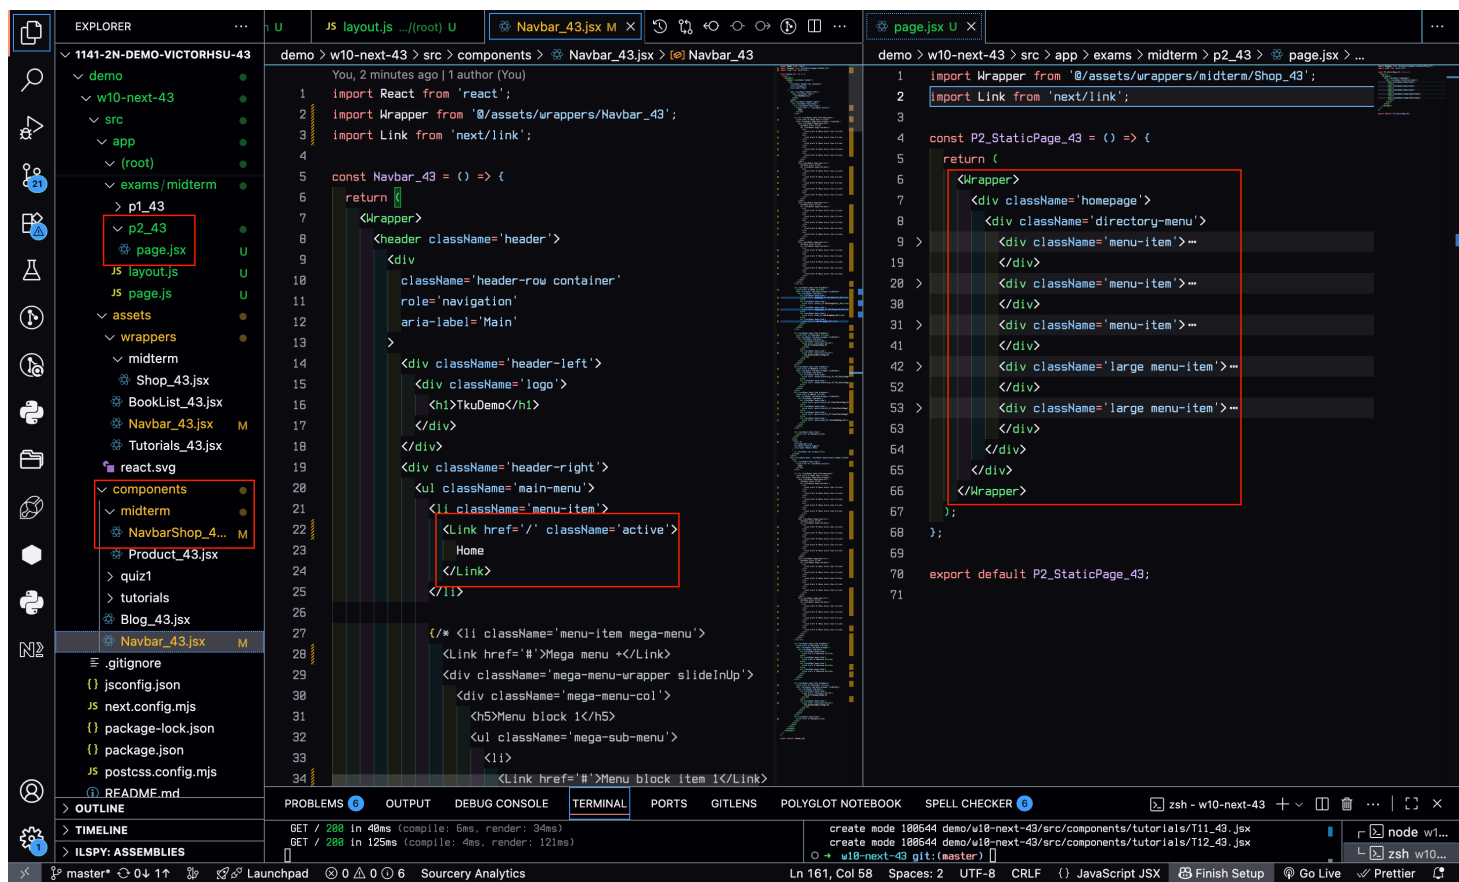

The image shows a VS Code editor interface. On the left is the Explorer sidebar showing a file tree for a project named '1141-2N-DEM...'. The tree includes folders like 'demo', 'src', 'app', 'exams', 'midterm', and 'p1_43'. Files like 'page.jsx', 'index.jsx', and 'Shop_43.jsx' are listed. The 'page.jsx' file is selected. The main editor area is split into two panes. The left pane shows the code for 'page.jsx', which includes imports for 'geistSans' and 'geistMono', and a function 'RootLayout' that returns a JSX element. A red box highlights the 'RootLayout' function. The right pane shows the code for 'Shop_43.jsx', which includes an import for 'Wrapper' and a function 'P1_StaticPage_43' that returns a JSX element. A red box highlights the 'P1_StaticPage_43' function. The status bar at the bottom shows the current file is 'page.jsx' and the editor is in 'UTF-8' encoding.
